

### Attachment 3. Transformation Claims

The jurisdictions listed in the table below have transformation credit included the annual per capita disposal rate for 2007, 2008 and/or 2009 in accordance with the requirements of PRC Section 41783.

1. Front-end recycling occurred prior to transformation.
2. The transformation facility conducts routine ash and residue testing.
3. The transformation facility was permitted prior to 1/1/95 in accordance with PRC Section 44150.
4. The jurisdictions continue to have effective implementation of their respective SRREs.
5. The transformation facility is in compliance with all applicable air quality laws, rules, and regulations.

Note: There are other jurisdictions that also sent material to transformation facilities, but the impact on the annual per capita disposal rate for these jurisdictions was less than 0.1 and did not change the annual per capita rate.
